Groundwater Usage Estimate Form

The well operator must complete this form if unmetered groundwater use occurred between the date of flowmeter failure and the installation date of the repaired/refurbished/new flowmeter.

Resolution No. 2019-02 requires that broken or inaccurate meters be reported to the Agency and repaired or replaced within 30 days of failure. Per Agency Ordinance Code Section 3.1.2., operators shall be prepared to provide an acceptable method of computing extractions that occurred between the date of meter failure and the date of meter repair or replacement.
