

Las Posas Valley Groundwater Basin Technical Advisory Committee Regular Meeting

Tuesday September 17, 2024, 2:00 PM

Via Zoom:

<https://us02web.zoom.us/j/84168071218?pwd=Kv42H0XegH4TthbvJUgzTrzACgXM8b.1>

Webinar ID: 841 6807 1218

Passcode: 150451

NOTICE OF MEETING

NOTICE IS HEREBY GIVEN that the Las Posas Basin Technical Advisory Committee (TAC) will hold a regular meeting via Zoom at **2 PM on Tuesday September 17, 2024**.

AGENDA

- A. Call to Order**
- B. Roll Call**
- C. Agenda Review**
- D. Public Comments**
- E. TAC Member Comments**
- F. Regular Agenda**
 - 1. Approve the Minutes of the August 27, 2024 TAC Special Meeting** (attached)
 - 2. TAC Administrator's Report on Policy and Procedural Questions Raised During July 15, 2024 Initial Meeting:**
 - i. Watermaster response to public financial disclosure question**
 - ii. Watermaster Counsel response to proposal to maintain shared files for collecting TAC member comments and recommendations**
 - iii. Watermaster feedback on level of effort for committee consultation**
 - 3. Committee Consultation – Draft Las Posas Valley Basin 5 Year Groundwater Sustainability Plan (GSP) Evaluation**

Las Posas Basin Watermaster has requested consultation from the TAC on the draft Las Posas Valley Basin 5 Year Groundwater Sustainability Plan (GSP) Evaluation. The memorandum provided by the Watermaster requesting this Committee consultation is attached and includes a link to the draft document (the link is reproduced below).

The Watermaster request for consultation was made pursuant to Section 4.9.1 of the Judgment, which requires the Watermaster share a draft of the GSP Evaluation with the TAC and Policy Advisory Committee (PAC) before submittal to the Court and/or Department of Water Resources. The TAC has the opportunity to provide comments and recommendations to the Watermaster in the form of a Recommendation Report. The Watermaster shall consider any such

Recommendation Reports and respond in writing before finalizing the GSP Evaluation (Watermaster Rules, § 2.7.3).

Watermaster has requested feedback from the TAC on the draft Las Posas Valley Basin 5 Year GSP Evaluation by October 7, 2024.

Access to the draft Las Posas Valley Basin 5 Year GSP Evaluation is available through the following link: <https://fcgma.org/wp-content/uploads/2024/08/Draft-LPVB-Periodic-Evaluation-Comments-due-10-07-2024.pdf>

The TAC will discuss the draft Las Posas Valley Basin 5 Year GSP Evaluation.

4. Committee Consultation – Draft Las Posas Valley Basin Groundwater Allocations Calculations for Water Year 2024

The Watermaster has requested TAC consultation from the TAC on draft Las Posas Valley Basin Groundwater Allocations Calculations for Water Year 2024 in a memorandum attached to this agenda. The Judgment requires calculation of Annual Allocations using protocols set forth in Exhibit D of the Judgment. The Annual Allocations must be published along with the related calculations in a chart to be included within the annual report and maintained on the Watermaster website.

The Watermaster conveyed in the consultation request memorandum that the Water Year 2024 Annual Allocations include some rampdown to reduce pumping to the Initial Operating Yield established in the Judgment. The Total Allocation Basis for the Las Posas Valley Basin in Judgment Exhibit C was 41,851.57 acre-feet per year (AFY) of groundwater production. However, the Initial Operating Yield in the Judgment was 40,000 AFY.

The TAC will discuss the draft Las Posas Valley Basin Groundwater Allocations Calculations for Water Year 2024 and consider comments and recommendations for inclusion in a Recommendation Report. The Watermaster has requested feedback from the TAC on this item by September 20, 2024.

5. Update on Committee Consultation Review Schedule

The TAC will receive an update on the schedule for upcoming committee consultations from the Watermaster Representative.

6. Schedule for Completing Committee Consultations and Related Recommendation Reports

The TAC will discuss the schedule for completing the current reviews requested by the Watermaster and approaches for meeting the requested delivery dates.

G. Items for Future Agenda

Potential items for future agenda will be considered by the TAC

H. Adjourn

Attachment 1

Minutes of the August 27, 2024 TAC Special Meeting

Las Posas Valley Groundwater Basin Technical Advisory Committee Special Meeting

Meeting Minutes
for
August 27, 2024

A. Call to Order

Technical Advisory Committee (TAC) Chair Chad Taylor welcomed all attendees and called the meeting to order at 1:00 pm.

B. Roll Call

All TAC members were present (via Zoom):

Voting Members

- Chair Chad Taylor
- Vice Chair Tony Morgan
- Bob Abrams

Non-Voting Members

- Kimball “Kim” Loeb
- Bryan Bondy

C. Agenda Review

Chair Taylor asked TAC members for comments or requests to add items to the agenda and none were raised.

Mr. Taylor opened the floor to public comments on the agenda or requests from the public to include additional topics and none were received.

D. Public Comments

Mr. Taylor opened the floor to public comments on items not on the agenda.

David Fleisch, Assistant Director with the Ventura County Public Works Agency (VCPWA) commented that he was sitting in for the agency as they transitioned to new management. He noted that the agency was previously represented on the Committee and expressed a desire to have new management represented.

Chair Taylor responded that the TAC was formed recently and there have not been any members other than those currently serving. He recommended that Mr. Fleisch review the Judgment requirements and process for TAC appointment and Watermaster review. Chair Taylor suggested Mr. Fleisch may have intended to enquire about Policy Advisory Committee (PAC) representation and clarified that the TAC must be appointed by member agencies and approved by the Watermaster. He also confirmed that the TAC is happy to have a representative from VCPWA or their stakeholder group on the TAC if they wish to pursue appointment. Chair Taylor also noted that the TAC is grateful to have VCPWA and other stakeholders attend and provide public feedback in TAC meetings.

E. TAC Member Comments

Chair Taylor opened the floor to TAC member comments.

Bryan Bondy indicated that the Watermaster has not reached out to him regarding completing financial disclosures (Form 700). Will they be?

Mr. Taylor noted that he will communicate with Watermaster staff regarding this and find out how they plan to handle it.

Kim Loeb announced that the GSP's first periodic evaluation was released during the week of the August 19th. The release included GSP evaluations for the Fox Canyon, Las Posas, Oxnard and Pleasant Valley basins. Workshops are planned to present these GSP evaluations in person, and information is available on the Watermaster website. Kim noted that more information and discussion would be provide in Agenda Item 4.

MR. Taylor noted that he received a Committee Consultation Request for the Las Posas Valley GSP 5-year Plan Evaluation on August 26th. The request included a deadline for comments by October 7. He reminded the TAC that there is only one regular TAC meeting before that deadline, so the TAC should consider how to most efficiently and effectively collect and provide comments in a Recommendation Report format. Chair Taylor volunteered to work with Watermaster Counsel to identify options for this process. Bob Abrams indicated that he was aware of other public bodies that maintained internal shared work for collecting comments outside of meetings. Chair Taylor expressed a desire for collection of well-crafted comments that can be included in a Recommendation Report for discussion in TAC meetings while maintaining a process that is open to the public.

F. Regular Agenda

1. Approve the Minutes of the July 31, 2024 TAC Special Meeting

Chair Taylor asked for comments on the draft minutes of the July 31, 2024 Special TAC meeting.

Kim Loeb provided a clarification on page 7 of the notes in Item 4, Committee Consultation for the 2025 Optimization Yield Study. The notes should be modified to reflect that when asked if he knew when the Optimization Yield Study would be available, Mr. Loeb said that he did not.

Mr. Taylor agreed to revise the notes to reflect this clarification and then made a motion to approve the minutes with these edits.

MOTION: Chair Taylor moved that the minutes of the July 31, 2024 TAC Special Meeting be approved as revised

SECOND: Bob Abrams

VOTE: Unanimously approved

Revised minutes from the July 31, 2024 TAC Special Meeting are attached.

2. Review Draft TAC Recommendation Report on Basin Optimization Plan Tasks 1 and 2

Mr. Taylor directed the TAC to discuss the draft TAC Recommendation Report on Basin Optimization Plan Tasks 1 and 2. He noted that the draft Recommendation Report was included in the meeting agenda packet and asked TAC members to provide comments and feedback.

Bob Abrams said that the draft nailed the TAC's comments and recommendations.

Mr. Bondy confirmed that the draft captured his comments well. He provided one suggested edit to clarify that many of the projects are very preliminary and conceptual and there is an outstanding question regarding the feasibility of many of the projects. Mr. Bondy suggested revising Recommendation 1 to include fatal flaws assessment.

Mr. Taylor committed to adding language to Recommendation 1 of the report requesting that the Watermaster consider and identify critical path items or fatal flaws identified in any individual projects

The TAC discussed the need for approval of Recommendation Reports prior to the Administrator sending them to the Watermaster and agreed that formal adoption was required.

Mr. Taylor asked for public comments on the draft TAC Recommendation Report on Basin Optimization Plan Tasks 1 and 2 and none were received.

Mr. Morgan asked if Mr. Taylor would be editing the draft TAC Recommendation Report on Basin Optimization Plan Tasks 1 and 2 to address Mr. Bondy's comments prior to submittal to the Watermaster and Mr. Taylor confirmed that he would.

MOTION: Mr. Morgan moved to approve the TAC Recommendation Report on Basin Optimization Plan Tasks 1 and 2 as revised and authorize the TAC Administrator to submit the revised Recommendation Report to the Las Posas Valley Watermaster

SECOND: Mr. Abrams

VOTE: Unanimously approved

The revised and finalized TAC Recommendation Report on Basin Optimization Plan Tasks 1 and 2 is attached.

3. Review Draft TAC Recommendation Report on Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study

Mr. Taylor advanced to discussion of the draft TAC Recommendation Report on Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study, which was attached to the meeting agenda packet.

The TAC members had no comments or requests for edits to this Recommendation Report.

MOTION: Mr. Taylor moved approve the TAC Recommendation Report on Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study and authorize the TAC Administrator to submit the revised Recommendation Report to the Las Posas Valley Watermaster

SECOND: Mr. Abrams

VOTE: Unanimously approved

The finalized TAC Recommendation Report on Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study is attached.

4. Update on Committee Consultation Review Schedule

Mr. Taylor asked Mr. Loeb to provide an update on the schedule for upcoming committee consultations from the Watermaster.

Mr. Loeb reminded the TAC of the draft GSP Periodic Evaluation that is now available, as discussed earlier in the meeting. He also noted that the draft Basin Optimization Plan (BOP) is in preparation and the Committees recommendations are being reviewed. Draft work will return to the Committees for review within a few months. The Basin Optimization Plan Yield Study scope and budget recommendations will go to the Watermaster for consideration. This scope and budget will have to be approved by the Watermaster before work can start. Other upcoming items for TAC consultation may include a PAC request to the Watermaster for TAC review of a specific topic. The Watermaster will review this request and may ask the TAC for consultation.

Mr. Loeb confirmed that for now the GSP periodic evaluation draft is the most pressing work item for the TAC.

Mr. Abrams asked if the October 7th deadline for recommendations on the draft GSP periodic evaluation is a hard date, or can it be changed?

Mr. Taylor noted that the Judgment allows the Committees to request additional time if necessary. He did also note that this document is due to DWR in January, which is controlling the schedule. He asked Mr. Abrams if this schedule presents a problem?

Mr. Abrams responded that he hoped it wouldn't.

Kim Loeb provided that the deadline is firm because the evaluation will involve reviewing and responding to comments as appropriate before revisions and submittal to DWR. With holiday schedules to consider in December coordinating Watermaster meetings and other work will be complicated and that is also a consideration for the Committee consultation time frame.

Chair Taylor notes that the draft GSP periodic evaluation has been released to the public, so it can be shared with the TAC immediately while maintaining Brown Act compliance. He noted that as this will be the first significant review, and the document is lengthy. If in mid-September the TAC believes they cannot complete the review by the October 7th deadline an extension request can be considered.

Mr. Morgan urged the TAC to spend a bit of thought on how comments will be compiled. Mr. Morgan noted that he experienced overlapping comments on large technical documents from multiple reviewers in the past and it will make producing a unified recommendation report difficult. A single cloud location for maintaining a shared copy of the document for the TAC to provide unified comments would be ideal. This would result in fewer duplicated or unintentionally contradictory comments and would expedite the discussion and recommendation process.

Mr. Taylor volunteered to speak with Watermaster legal Counsel about this topic and noted that by sharing written comments generated through a shared file with the public in attachments to agendas the TAC would maintain an open public process. He asked the TAC members for other thoughts on the review process?

Mr. Morgan asked if the Watermaster has indicated the level of effort the TAC should employ in the review? Mr. Taylor responded that the Watermaster's consultation request did not indicate or imply any specific level of review. The request referenced the Judgment and the language there is not specific. The Judgment indicates that the TAC and PAC must be given the opportunity to review specific documents, and this is one of them. No other We don't have

guidance on the level detail in Committees review is provided. Mr. Taylor provided the Watermaster will likely ask TAC members to determine the level of review detail to meet the professional responsibilities as advisors and stakeholders.

Mr. Morgan expressed a concern that the time and cost demand would not be what the PAC expects. He noted that it would be helpful to have this feedback. Mr. Loeb clarified that the PAC does not pay for reviews, but the water rights holders in the Las Posas Valley Groundwater Basin, whom the PAC represents, do. In addition to technical evaluation by the TAC, there are policy and other evaluations, and the PAC will also be providing comments and recommendations. Mr. Loeb recommended the TAC focuses on the technical aspects of the document.

Mr. Taylor noted that there are sections of the periodic evaluation covering technical topics and others relating to policy elements of the GSP. There may be six of the ten total sections of the document that are technical in nature, equating to approximately one-third of the roughly 300 pages. This provides some additional information regarding the level of effort. Mr. Taylor indicated that he would review consultation expectations with the Watermaster.

Mr. Morgan asked for clarification of the outcome of the TAC review. Would the TAC be producing a set of redline edits and comments, or simply comments on the document? Mr. Taylor responded that the Judgment requires TAC consultation responses to be provided in the form of Recommendation Reports. This could include an attached version of the draft document with in-line suggested edits and comments, but there would also have to be an associated Recommendation Report. The centralized and shared location for collecting comments and recommendations would streamline the process.

Mr. Loeb noted that the report closely follows California Department of Water Resources (DWR) suggested organization. This may not be the most logical order for presenting the information, but the Watermaster and their consultant tried to be consistent with the requested format. He advised the TAC to be consider this when commenting and providing recommendations. Mr. Taylor noted that TAC should focus review on technical instead of editorial items unless there is a lack of clarity that affects the understanding of a technical topic.

Mr. Taylor asked for any final thoughts on this topic before moving on in the agenda.

G. Items for Future Agenda

Mr. Taylor noted that review of the GSP 5-year evaluation review will be a significant component of the agenda for the next regular meeting. Mr. Bondy noted that the next regular meeting is scheduled for September 17th and asked if the TAC should consider scheduling a special meeting between then and the due date for comments?

Mr. Taylor agreed that a special meeting in that period would be useful. He suggested the weeks of September 23rd or 30th. The intent of the meeting on September 17th would be to collect comments from the TAC. A recommendation report could be drafted for TAC review in the special meeting.

Tony Morgan suggested Monday September 30th and Mr. Taylor asked if Wednesday or Thursday of that week, October 2nd or 3rd, would be possible to permit more time to generate a draft Recommendation Report.

Mr. Morgan asked if meeting on those dates would allow sufficient time to make revisions and meet the Watermaster deadline? Mr. Taylor responded that meeting on Wednesday the 2nd should be sufficient and asked if meeting at 1 PM was practical for the other TAC members? The other members agreed to a special meeting at 1 PM on Wednesday October 2, 2024.

No other future agenda items were raised by TAC members.

Mr. Taylor asked if there were public comments relating to future TAC agenda items. None were received.

H. Adjourn

Chair Taylor asked for a motion to adjourn the meeting.

MOTION: Bob Abrams moved that the meeting be adjourned

SECOND: Tony Morgan

VOTE: Unanimously approved

Meeting adjourned at 1:38 PM.

Attachment 1

Revised Minutes of the July 31, 2024 TAC Special Meeting

Las Posas Valley Groundwater Basin Technical Advisory Committee Special Meeting

Meeting Minutes
for
July 31, 2024

The Zoom meeting start was delayed due to technical difficulties and began at 1:24.

A. Call to Order

TAC Chair Chad Taylor welcomed all attendees and called the meeting to order at 1:25 pm.

B. Roll Call

All TAC members were present (via Zoom):

Voting Members

- Chair Chad Taylor
- Vice Chair Tony Morgan
- Bob Abrams

Non-Voting Members

- Kimball “Kim” Loeb
- Bryan Bondy

C. Agenda Review

There were no requested changes to the agenda.

No public additions to the agenda.

D. Public Comments

No public comments were received.

E. TAC Member Comments

There were no TAC member comments.

F. Regular Agenda

1. Approve the Minutes of the July 15, 2024 Initial Meeting (attached)

No comments from TAC member on minutes. Tony Morgan moved to approved the minutes and Bob Abrams seconded. Meeting minutes were unanimously approved.

2. TAC Administrator’s Report on Policy and Procedural Questions Raised During July 15, 2024 Initial Meeting:

Question 1: Are TAC members required to post physical locations on agenda for regular and other meetings?

The Judgment does not indicate that Committee members are required to post physical locations. The PAC has not included physical locations for members joining remotely.

Question 2: Do Brown Act requirements also pertain to non-voting TAC members:

Chad Taylor spoke with LPV Watermaster Counsel on Brown Act application to the TAC and was told the following:

A quorum of a legislative body is the number of members of the body necessary to conduct or transact business.

The LPV Adjudication Judgment in Section 6.7 says:

“A majority of the members of a Committee constitutes a quorum of the Committee. No meeting of a Committee may occur without a quorum of its members being present. The affirmative vote of a majority of the members present at a Committee meeting is necessary for any motion to pass, except as otherwise provided.”

A quorum can also be specifically defined to be a certain number or percentage of the members and specific quorum requirement can be made to apply to specific types of actions.

This Judgment is ambiguous about quorum requirements for the TAC where we have voting and non-voting members.

Watermaster Counsel recommends our quorum requirements be that:

Two voting TAC members must be present to open a TAC meeting and to take action. This approach avoids opening meetings where no action could be taken because the quorum consists of only one voting member, which is neither a quorum of voting TAC members or all TAC members. Where only one voting TAC member is able to attend, the meeting should be canceled and rescheduled.

Chad Taylor asked if TAC members thought they should use this procedure to evaluate TAC members moving forward. Bob Abrams agreed with it.

Chad Taylor recommended a motion to adopt the language above as the quorum guidance for the TAC.

Tony Morgan made a motion that the TAC adopt quorum requirements that at least two voting TAC members must be present to open a meeting and to take action and that when only one voting member is able to attend, the meeting should be canceled or rescheduled. Bob Abrams seconded this motion, and it was unanimously approved.

Chad Taylor read further recommendations from LPV Counsel:

TAC members discussions and deliberations should be held during TAC meetings, and individual TAC members (both voting and non-voting) should refrain from discussing TAC business with other TAC members outside of TAC meetings.

Given the LPV Adjudication judgment’s intent that all PAC and TAC meetings be open and public, all TAC discussion, deliberation, review and analysis, comments, recommendations, member work product and deliverables should all be exclusively handled during TAC meetings.

Communication outside of meetings should be limited to:

- scheduling and TAC member availability
- avoid substantive issues/decisions
- one other TAC member (whether voting or non-voting).

Chad Taylor noted that doing all business in meeting, including developing and reviewing recommendation reports, may necessitate increased meeting frequency. He noted that it may be a challenge to accommodate Watermaster counsel's recommendation that all work is handled during TAC meetings. Bryan Bondy said the recommendation from counsel can and should be followed. He noted that this may not answer the entire question about Brown Act requirements for non-voting members, but said that they can follow the recommendation. Chad Taylor believed it applies to both voting and non-voting discussions.

Chad Taylor recommended that they try to present all comments during meetings and then submit them to the TAC in the draft recommendation report form in the subsequent meeting. He also indicated that it may be possible to handle report review through tracked changes where TAC members present their edits to the TAC Administrator and those edits are then included in tracked changes in subsequent meeting agenda.

Bob Abrams said he preferred this approach with tracked changes. More frequent meetings could cause problems for many. Chad Taylor agreed and said he would discuss this with Counsel.

No other comments.

Question 3. Are non-voting members required to provide public financial disclosures consistent with Form 700?

Yes, Judgment section 6.11.2 requires all TAC members, whether permanent/voting or not, to annually submit a statement of economic interests in a form approved by the Watermaster. The Watermaster should be responsible for coordinating this reporting, which it has already done with the voting TAC members.

No public comments on agenda item 2.

3. Committee Consultation: Basin Optimization Plan Tasks 1 and 2

The TAC discussed the project evaluation criteria, technical evaluation, and list of projects for inclusion in the Basin Optimization Plan. TAC members provided comments on the adequacy of the information request form for projects, the project ranking criteria and associated weighting, assessment of project feasibility, and the collection of additional information to support project evaluation and planning. Recommendations were developed for the Watermaster during this discussion:

- Provide additional documentation of the process for defining, reviewing, and evaluating project components.
- Develop methods for evaluating how projects might affect groundwater quality and local undesirable conditions like pumping depressions, the effects of multiple projects on one another, and who the direct and indirect beneficiaries of each project would be.

- Include additional criteria addressing effects (positive or negative impacts) on sustainability criteria with a point scale of 1 to 20 in five categories, similar to the project implementation timeframe criteria.

TAC Discussion also included review of the individual projects and assessment of the proposed project proponents.

In this conversation TAC member Bondy indicated that Projects 2 and 9 (Importing of surplus water and using Calleguas facilities for replenishment, respectively) appear to be effectively one project with Project 9 a subset of Project 2. Mr. Bondy also reported that Calleguas Mutual Water District (CMWD) does not believe they are the correct project proponent for these projects. CMWD can provide input and assist with cost estimation but cannot define timing and logistics for importing surplus water for replenishment; this should be a shared responsibility.

Mr. Bondy also reported that since the 2022 GSP Zone Mutual Water Company (Zone MWC) decided not to pursue grant funding for the infrastructure upgrades necessary to support the in-lieu water delivery within the Zone MWC service area identified in Project 7. They would like to request that the Watermaster replace Project 7 with an in-lieu delivery option feasibility study. Mr. Bondy noted that Zone MWD not the only local agency capable of delivering water from east Las Posas Valley to west Las Posas Valley and they would like the Watermaster to consider reviewing existing infrastructure in the service areas of all the local agencies to identify opportunities, constraints, and costs associated with in-lieu water delivery.

The TAC discussed the specific request from the Watermaster for the TAC to provide input on the appropriate project proponent for Project 6. Mr. Loeb noted that there is no record of how or who requested that this project be included in the Judgment. The TAC did not have any additional information regarding potential project proponent(s) for Project 6.

The potential for evaluation of additional projects in the Basin Optimization Plan was also discussed. The TAC will recommend that the Watermaster solicit additional projects from stakeholders for inclusion and prioritization as part of the Basin Optimization Plan. This could include supplementing areas with limited natural recharge, filling data gaps with addition monitoring, assessing and improving irrigation efficiency, water level optimization through management of pumping locations and depths, or other projects identified by stakeholders.

The recommendations identified by the TAC will be compiled in a Recommendation Report by TAC Administrator Chad Taylor for consideration by the TAC at the next regular TAC meeting on August 20, 2024.

4. Committee Consultation: Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Basin Optimization Yield Study

The TAC discussed the Dudek Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study dated December 27, 2023. Members of the TAC asked if it was appropriate to review the scope and associated budget for this work in draft when it does not include scope and budget to model and assess optimization yield in the West Las Posas Management Area (WLPMA). Mr. Loeb asked the Watermaster staff member attending the meeting (Farai Kaseke) if on he knew when a scope and budget for modeling

and assessing optimized yield in the WLPMA is expected from United Water Conservation District (UWCD), but this information was not available. The Dudek scope of work indicates and assumption that UWCD will evaluate basin optimization using the same approach for the WLPMA as described in the Dudek scope for the East Las Posas Management Area (ELPMA).

The TAC identified recommendations for Watermaster consideration in requesting revisions to the Dudek scope of work and associated budget. These recommendations included:

- Clarify that baseline simulations for the ELPMA will apply only the portion of pumping identified in the Judgment associated with that Management Area and not the entire 40,000 acre-feet per year (AFY) indicated in the scope of work.
- Clarify model scenario nomenclature and add a true baseline scenario. Task 2.1 is named Baseline Model Scenario. However, the scenario as described includes simulation of projects designed to increase yield. The baseline scenario should include future conditions without projects, then a subsequent scenario including projects can be compared to that baseline to assess the effects of the projects on groundwater conditions.
- Add TAC and PAC consultation during model scenario development and evaluation in Tasks 1 and 2. The scope of work indicates that model scenarios and modeling results will not be reviewed by the TAC and PAC, but there may be important questions that need to be answered during scenario development and model analysis and consultation with the committees should be required.
- Add sufficient scenarios to Task 2.2 to evaluate not only reduce pumping but also increase in-lieu use from alternative sources of water supply. This would allow for focused delivery of supplemental water to areas of the Basin where undesirable results are identified in the modeling instead of uniformly reducing pumping for all groundwater users, which may reduce the need for rampdown and allow policy makers to identify the “sweet spot” for supplemental water delivery and pumping reductions to eliminate undesirable results while limiting pumping restrictions.

The recommendations identified by the TAC will be compiled in a Recommendation Report by TAC Administrator Chad Taylor for consideration by the TAC at the next regular TAC meeting on August 20, 2024.

5. Update on Committee Consultation Review Schedule

Mr. Loeb provided an update of the TAC consultation review schedule. He indicated that the timeframe for reviews may become compressed. The GSP 5-year evaluation draft is expected to be available for review week of August 19th. The Basin Optimization Plan will proceed following receipt of TAC comments and a draft of the Plan is expected in late fall 2024. Additional specific committee review timelines were not available.

G. Items for Future Agenda

Mr. Taylor asked if TAC members have topics they would like to be included in future meeting agenda. No future agenda items were identified.

H. Adjourn

Chair Taylor asked for a motion to adjourn the meeting. Bob Abrams made a motion to adjourn, and Tony Morgan seconded.

The motion passed unanimously, and the meeting adjourned at 3:09 pm.

Attachment 2

Final TAC Recommendation Report on Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study

LAS POSAS VALLEY TECHNICAL ADVISORY COMMITTEE

August 27, 2024

RECOMMENDATION REPORT

To: Las Posas Valley Watermaster
From: Chad Taylor, LPV TAC Administrator and Chair
Re: TAC Consultation Recommendation Report on Basin Optimization Plan Tasks 1 and 2

The Las Posas Basin Watermaster Board of Directors (Watermaster) approved a scope of work in January 2024 to prepare the Basin Optimization Plan for the Las Posas Valley Basin. The scope included six Basin Optimization Plan development tasks, the first two of which require committee consultation consistent with the Las Posas Valley Basin Adjudication Judgement before proceeding with the latter tasks of Basin Optimization Plan development. These first two tasks are: (1) project evaluation criteria development and (2) technical evaluation of projects for inclusion in the Basin Optimization Plan.

Watermaster staff requested consultation from the Las Posas Valley Technical Advisory Committee (TAC) on the first two tasks of Basin Optimization Plan Development in the attached memorandum dated July 10, 2024. This memorandum provided a summary of work completed to date, a list of the projects being considered, a draft project evaluation checklist, and a draft project ranking sheet for TAC review and consultation. In addition, Watermaster staff specifically requested that the TAC:

1. Confirm that each project is appropriate for inclusion in the Basin Optimization Plan.
2. Confirm that the assumed project proponents are appropriate.
3. Provide input on the appropriate project proponent for Project 6.

The TAC discussed the project evaluation criteria, technical evaluation, list of projects, and the three items above in a Special Meeting on July 31, 2024. During this meeting TAC members identified comments on the adequacy of the information request form for projects, the project ranking criteria and associated weighting, assessment of project feasibility, and the collection of additional information to support project evaluation and planning. Recommendations were also developed for the Watermaster to consider.

TAC COMMENTS AND RECOMMENDATIONS

TAC comments and recommendations on Basin Optimization Plan Tasks 1 and 2 are presented below.

Comment 1:

Projects 2 and 9 (Importing of surplus water and using Calleguas facilities for replenishment, respectively) appear to be effectively one project with Project 9 a subset of Project 2. The Calleguas Mutual Water District (CMWD) TAC representative (Mr. Bryan Bondy, PG, CHG) reported that CMWD does not believe they are the correct project proponent for these projects. The representative indicated CMWD can provide input and assist with cost estimation but cannot define timing and logistics for importing surplus water for replenishment; this should be a shared responsibility.

Comment 2:

Mr. Bondy also reported that since the 2022 GSP Zone Mutual Water Company (Zone MWC) decided not to pursue grant funding for the infrastructure upgrades necessary to support the in-lieu water delivery within the Zone MWC service area identified in Project 7. Mr. Bondy reported that Zone MWC would like to request that the Watermaster replace Project 7 with an in-lieu delivery option feasibility study. Such a study could assess the potential for in-lieu water deliveries from other local agencies capable of delivering water from east Las Posas Valley to west Las Posas Valley. The study could include a review of existing infrastructure in the service areas of all the local agencies to identify opportunities, constraints, and costs associated with in-lieu water delivery.

Comment 3:

The TAC has no additional information on potential project proponent(s) for Project 6.

Recommendation 1:

Provide additional documentation of the process for defining, reviewing, and evaluating project components. Additionally, the TAC recommends considering and identifying critical path items or fatal flaws identified in any individual projects.

Recommendation 2:

Develop methods for evaluating how projects might affect groundwater quality and local undesirable conditions like pumping depressions, the effects of multiple projects on one another, and who the direct and indirect beneficiaries of each project would be.

Recommendation 3:

Include additional criteria addressing effects (positive or negative impacts) on sustainability criteria with a point scale of 1 to 20 in five categories, similar to the project implementation timeframe criteria.

Recommendation 4:

Solicit additional projects from stakeholders for inclusion and prioritization as part of the Basin Optimization Plan. This could include supplementing areas with limited natural recharge, filling data gaps with additional monitoring, assessing and improving irrigation efficiency, water level optimization through management of pumping locations and depths, or other projects identified by stakeholders.

Attachment 3

Final TAC Recommendation Report on Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study

LAS POSAS VALLEY TECHNICAL ADVISORY COMMITTEE

August 27, 2024

RECOMMENDATION REPORT

To: Las Posas Valley Watermaster
From: Chad Taylor, LPV TAC Administrator and Chair
Re: TAC Consultation Recommendation Report on Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Optimization Yield Study

The Las Posas Basin Watermaster (Watermaster) requested consultation from the Las Posas Valley Technical Advisory Committee (TAC) on a draft scope of work for Dudek to prepare the Las Posas Valley Basin 2025 Optimization Yield Study. The Judgment requires the Watermaster to approve a scope of work and budget for the technical study to assess and establish the Basin Optimization Yield with committee consultation.

The Watermaster provided a memorandum requesting TAC consultation as soon as possible and transmitting the Draft Scope of Work to Prepare the Las Posas Valley Basin 2025 Basin Optimization Yield Study. The request (attached) acknowledges that the scope and budget are currently incomplete and that a revised complete draft will be referred to the TAC for consultation once United Water Conservation District provides the outstanding scope and budget information.

The TAC discussed the Dudek draft scope of work and associated budget dated December 23, 2023 in a Special Meeting on July 31, 2024 and developed the comments and recommendations below for the Watermaster to consider prior to authorizing the associated work.

TAC COMMENTS AND RECOMMENDATIONS

The TAC identified the following comments and recommendations for Watermaster consideration in requesting revisions to the Dudek scope of work and associated budget:

Comment 1:

The draft document does not include scope and budget to model and assess optimization yield in the West Las Posas Management Area (WLPMA). When is a scope and budget for modeling and assessing optimized yield in the WLPMA expected from United Water Conservation District (UWCD)? The Dudek scope of work indicates an assumption that UWCD will evaluate basin optimization using the same approach for the WLPMA as

described in the Dudek scope for the East Las Posas Management Area (ELPMA), but this should be confirmed.

Recommendation 1:

Clarify that baseline simulations for the ELPMA will apply only the portion of pumping identified in the Judgment associated with that Management Area and not the entire 40,000 acre-feet per year (AFY) indicated in the scope of work.

Recommendation 2:

Clarify model scenario nomenclature and add a true baseline scenario. Task 2.1 is named Baseline Model Scenario. However, the scenario as described includes simulation of projects designed to increase yield. The baseline scenario should include future conditions without projects, then a subsequent scenario including projects can be compared to that baseline to assess the effects of the projects on groundwater conditions.

Recommendation 3:

Add TAC and PAC consultation during model scenario development and evaluation in Tasks 1 and 2. The scope of work indicates that model scenarios and modeling results will not be reviewed by the TAC and PAC, but there may be important questions that need to be answered during scenario development and model analysis and consultation with the committees should be required.

Recommendation 4:

Add sufficient scenarios to Task 2.2 to evaluate not only reduce pumping but also increase in-lieu use from alternative sources of water supply. This would allow for focused delivery of supplemental water to areas of the Basin where undesirable results are identified in the modeling instead of uniformly reducing pumping for all groundwater users, which may reduce the need for rampdown and allow policy makers to identify the “sweet spot” for supplemental water delivery and pumping reductions to eliminate undesirable results while limiting pumping restrictions.

**Committee Consultation Request – Draft Las Posas Valley Basin – 5 Year
Groundwater Sustainability Plan (GSP) Evaluation**

FOX CANYON GROUNDWATER MANAGEMENT AGENCY

LAS POSAS VALLEY WATERMASTER

MEMORANDUM

Date: August 26, 2024
To: Las Posas Valley Watermaster Technical Advisory Committee
From: Kudzai F. Kaseke, Assistant Groundwater Manager
Subject: Committee Consultation for the Draft Las Posas Valley Basin – 5 Year Groundwater Sustainability Plan (GSP) Evaluation

Dear Las Posas Valley Watermaster Technical Advisory Committee (TAC):

Pursuant to Section 4.9.1 of the Las Posas Valley Water Rights Coalition, et al. v. Fox Canyon Groundwater Management Agency, Santa Barbara Sup. Ct. Case No. VENC100509700 (Judgment), Watermaster shall share a draft GSP Update with the TAC and Policy Advisory Committee (PAC) before Watermaster submits the GSP Update to the Court and Department of Water Resources. In addition, Watermaster shall consider and respond in writing to any recommended edits to the draft GSP Update by PAC and TAC before finalizing the GSP Update. (Watermaster Rules, § 2.7.3).

Watermaster has developed a draft version of the Las Posas Valley – 5 Year Groundwater Sustainability Plan (GSP) Evaluation, and in compliance with the provisions of the Judgment, refers said draft for committee consultation. Access to the draft is available through the following link: [Draft Las Posas Valley - 5 Year Groundwater Sustainability Plan](#). Please provide feedback via the email below to the Watermaster by October 07, 2024.

Please contact me at 805 654 2010 or LPV.Watermaster@ventura.org with any questions or concerns or if you fail to access the file.

Committee Consultation Request – Draft Las Posas Valley Basin Groundwater Allocations Calculations for Water Year 2024

FOX CANYON GROUNDWATER MANAGEMENT AGENCY

LAS POSAS VALLEY WATERMASTER

MEMORANDUM

Date: September 04, 2024
To: Las Posas Valley Watermaster Technical Advisory Committee
From: Kudzai F. Kaseke, Assistant Groundwater Manager
Subject: Draft Las Posas Valley Basin Groundwater Allocations Calculations for Water Year 2024.

Dear Las Posas Valley Watermaster Technical Advisory Committee (TAC):

Attached for your review is the Las Posas Valley Watermaster's (Watermaster) Draft Groundwater Allocations Calculations for Water Year 2024 according to the Las Posas Valley Basin Adjudication Judgment (Judgment).

The Judgment states that, the Watermaster, following Committee Consultation, shall annually calculate the Annual Allocations using the protocols and formulas set forth in Exhibit D of the Judgment and publish the Annual Allocations Calculation in a chart to be included within the annual report and maintained on the FCGMA website (Judgment § 4.2). The Judgment also sets Initial Operating Yield at 40, 000 AF through at least Water Year 2024 (Judgment § 4.9.1.1) but Total Allocation Basis for the basin exceeded this at 41, 851.57 AF (Judgment Exhibit C) necessitating rampdown to bring the Total Allocation Basis in line with the Initial Operating Yield. Allocations are similar to Water Year 2023 allocations except for transfers and change in WMID ownership.

Watermaster contacted Hypericum Land Company, LLC, Hypericum Interests, LLC, Butler Ranch Mutual Water Company, and Del Norte Mutual Water Company (collectively, Conditional Domestic Holders) to request the certificates of occupancy necessary for the Conditional Domestic Allocations granted to the Conditional Domestic Holders to accrue, such that the Conditional Domestic Allocations should be included in the Watermaster's Groundwater Allocations Calculations for Water Year 2024. (See Las Posas Valley Adjudication Judgment, §§ 4.5.3.9, 4.5.3.10, Exhibit G, Exhibit H.) Butler and Hypericum companies responded by the deadline set forth in the Watermaster's letter; no response has been received from Del Norte. Butler and Hypericum's counsel explained that they are still working to obtain permits, and not requesting Conditional Domestic Allocation for Water Year 2024 but reserve the right to request such allocation in the future. Therefore, none of the Conditional Domestic Allocations granted to the Conditional Domestic Holders has accrued, and the Watermaster has accordingly prepared the attached Groundwater Allocations Calculations for Water Year 2024, which does not include allocations for the Conditional Domestic Holders. Watermaster has also included tentatively approved requested changes to the [Groundwater Schedule](#) subject to Board's final approval.

The Watermaster plans to bring the Draft Las Posas Valley Groundwater Allocations Calculation to the Fox Canyon Groundwater Management Agency Board of Directors (acting as the Watermaster Board) for approval at its September 25, 2024, meeting. Please provide feedback to the Watermaster by September 20, 2024, for inclusion in the agenda packet.

Please contact me at 805 654 2010 or LPV.Watermaster@ventura.org with any questions or concerns.
