Minutes of the February 11, 2025 TAC Regular Meeting

Las Posas Valley Groundwater Basin Technical Advisory Committee Special Meeting

Meeting Minutes
for
February 11, 2025

A. Call to Order

Chair Chad Taylor called the special meeting to order at 2:01 pm.

B. Roll Call

All voting TAC members present (via Zoom):

- Vice Chair Tony Morgan - Present
- Dr. Bob Abrams – Present
- Chair Chad Taylor - Present

All non-voting TAC members were present (via Zoom):

- Kim Loeb – Present
- Bryan Bondy – Present

Chair Taylor reported that the Las Posas Valley Technical Advisory Committee (TAC) had a quorum with all three voting members present.

C. Agenda Review

Chair Taylor reminded attendees that the agenda for the special meeting was published and notified by the Watermaster the morning of February 10, 2025. He then informed the TAC that in the evening of February 10th, the Watermaster circulated additional components of the Draft Las Posas Valley (LPV) Basin Groundwater Sustainability Plan (GSP) 2025 Annual Report Covering Water Year 2024 (Water Year 2024 Annual Report). Mr. Taylor indicated that discussion of this additional information would be included in Regular Agenda Item 3.

Mr. Taylor asked if TAC members or the public had comments on the agenda. TAC members had no comments on the agenda.

Mr. Reddy Pakala made a public comment indicating he would have a comment on Regular Agenda Item 2.

No other comments were provided.

D. Public Comments

Chair Taylor asked for public comments on items not on the agenda; none were received.

E. TAC Member Comments

Mr. Taylor offered an opportunity for TAC members to comment on items not on the agenda. No comments were received.

F. Regular Agenda

1. Approve the Minutes of the February 4, 2025 Regular Meeting

Mr. Taylor asked TAC members for comments on the minutes from the February 4, 2025 regular meeting, which were included in the agenda packet. A single correction to a date was identified during discussion and TAC members agreed that the minutes could be approved and submitted to the Watermaster as amended.

MOTION: Vice Chair Morgan moved to approve the amended minutes of the February 4, 2025 TAC Meeting

SECOND: Dr. Abrams seconded the motion

VOTE: Unanimously approved

2. Revised Recommendation Report Review – Draft Initial Basin Optimization Plan

Chair Taylor advanced to discussion of the revised Recommendation Report on the draft Initial Basin Optimization Plan. He reminded the TAC and attendees that the TAC reviewed a draft Recommendation Report on this topic in the previous meeting on February 4, 2025, and identified edits to the recommendation regarding dependent projects. Mr. Taylor and Mr. Bondy collaborated on revising the text of that recommendation following the last TAC meeting. The agenda included a version of the Recommendation Report with tracked changes to show the differences compared to the first draft (agenda page 34). The agenda also included a version of the revised Recommendation Report without tracked changes for TAC members to review (agenda page 7).

Mr. Taylor asked TAC members for comments and/or discussion of the revised draft Recommendation Report.

Dr. Abrams asked if it would be appropriate for the TAC to include a statement regarding the scope of the Moorpark Desalter project that suggested the project be expanded to have regional benefit and be implemented by the Watermaster / Fox Canyon Groundwater Management Agency (FCGMA). Mr. Bondy indicated that this may be out of the scope of the TAC's consultation and other TAC members agreed.

Dr. Abrams asked if this could be presented as a comment instead of a recommendation. The TAC collaborated on identifying appropriate language for this comment and where in the document to insert it.

Mr. Taylor asked for public comment and Mr. Reddy Pakala, a Moorpark Resident and recently elected Calleguas Municipal Water District Director, asked for clarification of the process for projects to be included in the basin yield modeling. Mr. Pakala asked if the Moorpark Desalter project could be included in future optimization yield modeling if additional information was provided for the project by Ventura County Water Works District 1.

TAC members responded that the role of the TAC is to provide technical consultation to the Watermaster on request. In this case, the TAC has not recommend which projects are included in basin optimization modeling, but reviews the technical information developed by the Watermaster and their consultants. The draft Basin Optimization Plan reviewed by the TAC indicated that a feasibility study for the Moorpark Desalter project was necessary prior to including it in basin yield optimization modeling. The current Basin Optimization Plan is an initial assessment, which will be periodically revisited by the Watermaster.

Mr. Pakala asked whether potential water quality improvements were considered as part of the prioritization process in the Initial Basin Optimization Plan. Mr. Loeb responded that the effects of each project on water quality were discussed. The criteria for evaluating projects focused on increasing the yield of the Las Posas Valley Basin, as required by the Judgment.

No additional public comments were made.

Mr. Taylor asked the TAC if they were prepared to vote on approval of the Recommendation Report on the draft Initial Basin Optimization Plan as amended during the meeting. TAC members indicated that the report represented their combined recommendations and there were no minority opinions not included in the report.

MOTION: Vice Chair Morgan moved to approve the amended minutes of the February 4, 2025 TAC Meeting

SECOND: Dr. Abrams seconded the motion

VOTE: Unanimously approved

3. Recommendation Report Review – Draft Las Posas Valley Basin Groundwater Sustainability Plan 2025 Annual Report Covering Water Year 2024

Chair Taylor moved on to discussion of the draft Recommendation Report for the Water Year 2024 Annual Report. He noted that the Watermaster provided outstanding appendices to the annual report to TAC members via email on February 10th. These appendices contained annual allocation accounting for Water Year 2024 and an updated groundwater allocation schedule. The Watermaster asked the TAC to review these additional materials and provide feedback by March 7, 2025.

After discussion of what was included in the transmittal from the Watermaster, the TAC decided the draft Recommendation Report on the Water Year 2024 Annual Report was complete. A typographical error was identified and addressed during discussion.

Chair Taylor provided an opportunity for public comment and none were received.

MOTION: Vice Chair Morgan moved to approve the TAC Recommendation Report on the Water Year 2024 LPV Basin Annual Report and authorize the Administrator to submit it to the Watermaster

SECOND: Chair Taylor seconded the motion

VOTE: Unanimously approved

Mr. Taylor asked if there were any minority opinions within the TAC that should be noted in the final Recommendation Report and none were raised. Mr. Taylor indicated he would add the results of the voting and submit the final Recommendation Report to the Watermaster.

4. Update on Committee Consultation Review Schedule

Mr. Loeb informed the TAC that there were no new items to add to the list of upcoming committee consultation requests. He updated the TAC on coordination with United Water Conservation District (UWCD) regarding using the existing Coastal Plain Model to simulate projects and basin optimization in the Basin Optimization Yield Study. As of the most recent communication provided to Mr. Loeb, UWCD indicated they are too busy to complete the modeling tasks for the Basin Optimization Yield Study. The Watermaster will therefore be developing detailed information on the alternative approaches to assessing optimization of the

West Las Posas Management Area for TAC review. The date for submittal of these alternatives to the TAC for review was not available.

Dr. Abrams expressed frustration that UWCD will not be applying the existing Coastal Plain model for the Basin Optimization Yield Study.

Mr. Bondy noted that the Calleguas ASR (aquifer storage recovery) study group has not been formed, but recommendations for members have been provided to the Watermaster and progress has been made.

No public comments.

5. Schedule for Completing Committee Consultations and Related Recommendation Reports

Mr. Taylor advanced to discussion of current committee consultations and noted that with approval of the two Recommendation Reports voted on earlier in the meeting, the TAC had completed the existing consultation requests and is not aware of any additional expected consultations in the coming weeks.

Chair Taylor thanked the other members of the TAC for their diligence in working through the multiple committee consultations required over the preceding two months.

No public comments were received.

G. Items for Future Agenda

Mr. Taylor asked for recommendations for items to consider including in future agendas from the TAC and public; none were identified.

Mr. Taylor reminded the TAC and public attendees that TAC members previously requested regular meetings not be held unnecessarily. He indicated that the next regular meeting, scheduled for February 18, 2025, would be canceled if no agenda topics arise by February 13th.

H. Adjourn

MOTION: Mr. Taylor moved to adjourn the meeting at 2:38 pm

SECOND: Dr. Abrams seconded the motion

VOTE: Unanimously approved
