# FOX CANYON GROUNDWATER MANAGEMENT AGENCY MEMORANDUM

Date: April 15, 2025

To: Fiscal Committee

From: Arne Anselm, Interim Executive Officer

Subject: Item E – Fiscal Year 2025-26 FCGMA Budget Development Study Session

#### Background

The Fiscal Committee's budget development study sessions provide an opportunity for the Committee to evaluate the proposed Draft Budget for Fiscal Year (FY) 2025-2026 and provide recommendations for any modifications prior to consideration of adoption by the full Board. The June Board meeting is when the annual budget is anticipated to be adopted, though there is no requirement that the budget is adopted prior to the start of the Fiscal Year.

The Draft FY 2025-26 Budget is presented into two parts: the Annual Work Plan, and the Budget. The Annual Work Plan includes a description of the proposed tasks, labor estimates, and contract estimates where appropriate, all of which, in turn, inform the proposed FY 2025-26 Budget.

#### Does not include LPV Watermaster Budget

The budget discussion in this Item does not include labor estimates or contracts for the LPV Watermaster. These actions are funded through a separate assessment and the funds are held separately in the LPV Watermaster Fund.

#### Draft Annual Work Plan

The draft Fiscal Year 2025-26 Work Plan summarizes the major work tasks and staff services anticipated during the next Fiscal Year (Exhibit E1). Staff efforts in this draft workplan are focused on improving business processes, addressing any backlog of reports and requests, and groundwater monitoring network planning.

The Work Plan categorizes Annual Operations into Administration and Fiscal Services, Records Services, Technical Services, Legal Services, and Public Outreach. Efforts which are not routinely done each year are included in a separate Special Expenditures category. This category includes tasks such as continued Groundwater Sustainability Plan (GSP) implementation, and continued implementation of new extraction allocation systems. Past workplans have included procurement of a new data management system, Water Market development and implementation, administration of the Department of Water Resources (DWR) Sustainable Groundwater Management (SGM) Implementation Grant, Round 1, and installation of monitoring wells in the Oxnard and Pleasant Valley (OPV) Basins as part of the grant program. Those items are listed, but are not significant priorities in the draft Fiscal Year 2025-26 Work Plan.

Discussion on the draft Fiscal Year 2025-26 Work Plan is needed to identify which Special Expenditures the Agency should prioritize in Fiscal Year 2025-26.

#### **FCGMA Staffing**

Agency administration and staffing is provided under contract by the Ventura County Public Works Agency (PWA). Specific staff are fully assigned to the Agency and other PWA staff are utilized as needed on a part-time basis. PWA Fiscal staff are provided on a fixed-cost basis in a separate column on this Work Plan. The current Fiscal Year's (FY 2024-25) approved Work Plan and Budget included a total of 13.8 full-time equivalent (FTE) staff. This includes new positions of groundwater hydrologist and management assistant, and part time help of a groundwater hydrologist and student worker. Staff time projected to implement the LPV Watermaster is not represented here, and so individual positions will show less than a full-time equivalent.

#### FY 2025-26 Draft Budget

Staff costs are included in the Budget worksheet under the line item for Public Works Agency charges and consultant costs and other contracts are included as separate line items. Columns on the Budget worksheet show FY 2023-24 year-end actual amounts, FY 2024-25 adopted budget and projected year-end actuals (based on fiscal reporting through February 28, 2025), the FY 2025-26 Draft Budget, and planning-level budget projections for FY 2026-27. The FY 2025-26 Draft Combined Budget is attached (Exhibit E2). The combined budget includes all revenues and expenditures, including outside legal counsel. The FY 2025-26 Draft Operations Budget is attached (Exhibit E3) and only shows revenue designated to the operations account and those expenditures.

The various accounts and budget lines that are itemized in the attached FCGMA FY 2025-26 Draft Budget (Exhibit E2) are described below:

#### Groundwater Extraction Management Enforcement Surcharge (GEMES) Reserve Account

The GEMES account was established by your Board as a reserve account for legal expenses. Projected Special Counsel and County Counsel litigation expenses are based on the updated estimates. The GEMES account is funded through a \$20 per Acre-Foot (AF) Reserve Fee. The GEMES account was renewed by your Board for four years at the October 2024 FCGMA Board of Directors meeting and is subject to annual review.

#### **Designated Surcharges Account**

The FY 2025-26 Draft Budget projects \$1,000,000 in surcharge revenue. Surcharge revenue is not used for operating expenses and can only be used for Board-designated expenses, which have been principally for water replenishment or supporting projects to increase the water supplies and/or sustainable yield of the Basins. The Board approved a \$1,000,000 loan to the FCGMA Operating Account in the FY 2022-23 Budget to cover the projected shortfall due to expenses for installing monitoring wells in the OPV Basins as part of the SGM Grant program. At that time the Board's direction was for the loan to be repaid in FY 2024-25. The adopted FY 24-25 FCGMA Budget postponed repayment until FY 25-26.

Presented in the FY 2025-26 Draft Budget is a recommendation to repay the loan as initially planned in FY 2024-25. The funds were not expended due to one monitoring well being removed from the project because of permitting delays and the others being completed under budget. Discussion on developing a loan policy is Item F on this Agenda. Guidance should be developed on when loans are granted and how repayment is structured.

#### **Designated Reserve Account**

The Designated Reserve Account balance remains at \$1,000,000 per your Board's direction.

#### **Designated Accounts Interest Earnings**

This line shows the projected interest earned for the three designated accounts.

#### **Operating Revenues**

Operating Revenues include pump-charges (\$6/AF), groundwater sustainability fees (\$29/AF), interest earnings, penalties, grant, and miscellaneous revenues. Additionally, there are line items for projected reimbursement from the DWR SGM Implementation Grant Round 1 for projects in the OPV Basins and transfers from the Designated Surcharge Account. The transfers from the Surcharges Account are reflected in the FY 2024-25 Draft Budget with \$1,000,000 in revenue to the Operating Account in FY 2022-23. Funding from the grant is shown as \$2,577,800 in FY 2024-25.

#### **Analysis and Recommendations**

At the 2023 Fiscal Committee budget development study session, the Committee recommended that the Groundwater Sustainability Fee be increased to \$29/AF in FY 2022-23 and by another \$15/AF to \$44/AF

FCGMA Fiscal Committee – Item E April 15, 2025 Page 3 of 3

in FY 2023-24 to provide sufficient funds for the Agency's annual operations. The Board only acted on the Committee's recommendation to increase the fees in FY 2022-23 and did not adopt a second increase for FY 2023-24. The draft Budget projects that the Operating Fund will end FY 2024-25 with a balance of approximately negative \$444,991 with the repayment of the \$1,000,000 transfer from the Surcharges Account in FY 2022-23. The FY 2025-26 Draft Operations Budget developed for this budget study session has a net operating results of \$282,432. The FY 2025-26 Draft Combined Budget (all revenue and expenditures) forecasts \$2,199,076 net results.

#### Summary

Staff requests the Fiscal Committee consider and recommend modifications to the Draft FY 2025-26 Work Plan and Budget for the Board's consideration of adoption.

## **ITEM F1 - FISCAL COMMITTEE POLICY PRIORITIES**

## Planning for Future Budget Development

Fiscal Committee strategic recommendations for future budget development follow below.

## Schedule a PWA Contract Renewal Discussion

The contract between the Agency and the County for staffing services was entered in 1983 and amended in 1998. The Fiscal Committee recommended reviewing and updating this contract if necessary.

## Annual Agency Objectives Discussion

A review of Agency objectives should be schedule annually with the Board in February or March for input into the next fiscal year's budget and work plan. Objectives related to project evaluations and data management should be sent to the Operations Committee meetings during the year, as needed.

## Annual Strategic Goal Review

Along with Agency objectives, a review of the Agency's strategic goals should be scheduled annually with the Board in February or March for input into the next fiscal year's budget and work plan. The Executive Committee should be directed to address how the Agency will meet its strategic goals.

## Pre-Draft Budget and Work Plan Review

Annually, in April or May, review the Draft Budget and Draft Work Plan and gather feedback to ensure they align with objectives and strategic goals. Determine drafting timeline of future Proposed Budget Reports to build from and incorporate feedback gathered during this pre-review stage.

Once this process and timeline is more solid, add to "Financial Management Process" section in Proposed Draft Budget Report.

#### Set Expectations Early

An earlier start to the budget process will allow a thorough discussion of expectations for the Work Plan and presentation of the budget. This will provide the Fiscal Committee and the Board with more opportunities to prioritize the goals and objectives for staff to focus on in the next Fiscal Year.

#### Item F1

#### 4/15/2025 Fiscal Committee Meeting

The foundation of the draft budget is the Work Plan. The Work Plan summarizes staff services needed to meet the major work tasks identified to meet Agency goals during the next Fiscal Year. Improved strategic planning for those goals will feed into the Work Plan and therefore the Budget.

## Fiscal Committee Policy Development

The Fiscal Committee has identified several areas for policy development, as noted in the appendices; the policies they would like to prioritize are highlighted below.

#### <mark>Loan Policies</mark>

#### Loan From Designated Surcharges Account

The DWR SGM Grant wells will be completed in the beginning of FY 25/26. Consideration should be made when, or whether to repay the \$1,000,000 loan from the Designated Surcharges Account. An additional consideration can be made whether the full costs of the monitoring wells should be funded through the Designated Surcharges Account once the well project is complete and the full costs are known. A policy on loans to accounts within the Agency will help with future budget discussions.

#### LPV Watermaster Legal Fee Payment Policy

Develop LPV Watermaster Legal Fee Payment Policy for post-Adjudication Judgment Implementation. LPV Watermaster should fund all future legal efforts through the collection of their own funds.

#### **Contingency Policy**

Sufficient contingency should be available to ensure Agency operations. A clear policy on how contingencies are set and accessed through a separate accounting should be developed. Suggestions included raising contingency to 500,000 for FY 25/26 or, be set at 10% of the operating budget.

#### Insurance Policy Review and Renewal

Review and raise line item as appropriate to ensure adequate limits for Public Officials insurance policy during the next renewal period, which occurs annually in June.

## LPV Watermaster Budget

Future iterations of the Proposed Report could include separate sections that incorporate the separate LPV Watermaster Budget and Work Plan drafts to present a complete picture of the Agency tasks and efforts by Agency staff.
